Program Description
This program will explore the financial, business and economic landscape of Dubai and Abu Dhabi, two of the most successful emirates that make up the United Arab Emirates (UAE). Lectures offered by local experts, company visits, and visits to cultural heritage sites will provide students with an impactful experiential learning opportunity. Students will gain insight into key financial and managerial issues in the UAE within the greater context of Islamic finance and financial institutions.

Dubai has grown in prominence over the past few decades as a relatively young global destination. It is now a global financial, tourism and logistics hub. Bold architectural design (e.g., Burj Khalifa, the tallest building in the world, and Palm Islands, the man-made islands shaped as palm trees) provides a unique identity to this city. Abu Dhabi, the capital city of the UAE, has also made major strides and has become a world-renowned destination. The city is home to the Louvre Abu Dhabi, to a Formula One circuit, and to the Ferrari World among others. The in-country experience will allow students to observe first-hand how visionary leadership, coupled with ample resources, can act as an engine for tremendous growth and prosperity.

Accommodations
Participants will stay in comfortable, double-occupancy 4-star hotels in both Dubai and Abu Dhabi near major economic and cultural heritage sites.

Application Information
The program is open to undergraduate students who meet all academic requirements of the Georgia State University J. Mack Robinson College of Business. Program size is limited and participation is contingent upon acceptance by the Program Director.

International students at Georgia State who hold F-1 visas must contact the Office of International Students and Scholar Services at (404) 413-2070 to discuss possible implications of study abroad for their immigration status.
